Higginbotham's nonprofit specialists help protect you against the exposures that challenge organizations like yours, no matter what your size. We have the know-how to provide effective insurance and risk management solutions tailored to the sensitive risks of your nonprofit.

That’s why The Nonprofit Council partnered with us to serve its members.

But it’s also our values. Higginbotham is family to our employees, accountable to our clients, teammates to our insurance carriers and generous to our communities. In fact, we’ve granted over $3.4 million to locally-run nonprofits through the Higginbotham Community Fund. And we have our generous employees to thank for the donations and pledges that subsidize the fund.

**Single Source Solution**
The Higginbotham approach to finding solutions is more individual and less institutional. We are a single source solution for business insurance, risk management, employee benefits and HR services. By understanding your priorities, eliminating inefficiencies, and committing to transparency while demonstrating authenticity, Higginbotham is a place that leads with values so value leads.
